

## Kalix Series

# Kalix Series

Stylish, modern design

Maintenance-free sealed tank keeps water safe from elements

Reduced leak points

Efficient cooling

Easy cleaning

Cold water performance:

8 consecutive 6 oz cups below 50°F

40 x 6 oz cups per hour

Soft touch water dispenser

Two-piece cooling tank

Easy filter installation/access

Removable, self-draining drip tray

## AquaBar II Series

Delivers 2 gallons of 50°F water per hour (43 x 6 oz. cups) and over 2 gallons of piping hot water per hour (45 x 6 oz. cups)

Modern cabinet design accented by charcoal grey or satin silver accent trim with either a carbon fiber look or marble style panel depending on model

Easy to use buttons located on front display panel for tri-temperature dispensing for hot, cold and/or ambient temperatures. Large faucet alcove for filling sports bottles and carafes

4 gallon, non-removable stainless steel tank with external copper refrigerant coil encased in molded foam insulation with 450 watt hot water reservoir stainless steel tank

Water Safety Faucet protects small children from dispensing hot water

Large capacity drip tray lifts out for easy removal and is dishwasher safe

Molded side handles and rear rollers allow agile movement and installation

Optional pedestal raises dispense point an extra 6-1/2" from floor

Automatic shut-off valve prevents water from being wasted once the water reservoir is full
